PREFACE.

The Editors have now the pleasure of issuing a volume of Worcestershire Marriage Registers, and they propose to continue the series in succeeding volumes. They will be glad to receive offers of assistance in the work of transcription, since only by volunteer help is it possible to print to any large extent our ancient parish registers.

The present volume, though complete in itself, forms one of a series which now includes many other English counties; and genealogists, not only in Worcestershire, but throughout the whole English world, will appreciate this systematic effort to render generally available the information contained in parish registers, which to all intents, save to a very few expert enthusiasts, are still sealed books. These printed copies will preserve the information they contain, even though the originals be lost by carelessness, theft, or fire. Moreover, registers in the past have been sometimes tampered with for wrongful purposes, as was done in the recent Shipway pedigree case, in which forged entries, both early and late, were inserted in several Gloucestershire parish registers.

In several instances where registers have been printed, as a consequence, volumes which had been supposed to be lost have been discovered and subsequently printed, thus shewing how desirable it is to make public by means of the printing press these ancient records.

1379279

The registers have been transcribed by the Rev. J. H. Bloom, Rev. Gordon H. Poole, Rev. F. W. Quilter, Rev. W. J. Holden, Rev. H. Newton, Rev. F. Smith, Rev. Dr. Chafy, and Rev. J. H. L. Booker.

The reader is also indebted to the clergy, who have most willingly concurred in allowing the registers to be printed. Their names are mentioned under their respective parishes.

Every care has been exercised in the transcription of the copy, and in many cases the proofs have been collated with

the original registers. Still errors may have crept in, from the difficulty of distinguishing certain letters, such as c and t, u, m, n, and i, K and R, O and C, etc. It must also be borne in mind that the existing early registers are themselves but transcripts from the original paper registers, made under the order of Elizabeth, in 1597.

The entries have been reduced to a common form, and the following abbreviations adopted :—

w.=widower *or* widow.	d.=daughter of.
s.=spinster, single woman, *or* son of.	p.=of the parish of.
b.=bachelor *or* single man.	dioc.=in the diocese of.
	co.=in the county of.
	lic.=marriage licence.

It must be remembered that these printed abstracts of marriage registers are not "evidence" in the technical sense. Certified copies must still be obtained when evidence of a marriage is needed for proving a pedigree in a Court of law, or when registering it at Heralds' College. For such certificates application must be made to the clergy in charge of the original registers.

Ultimately, no doubt, the baptisms and burials will find their way into print, but it seems expedient to issue the weddings first, as is done in the present series.

No index is issued with the volume, as the Editors believe that it is better to print as many registers as possible, and for the present to defer index-making until the registers still in manuscript are placed beyond the risk of loss. The temporary absence of an index to the separate volumes or parishes will be fully compensated for by the issue, to which the Editors look forward, of one general index to the whole county.

April, 1901.

Marriages at Shipston-on-Stour,

1572 to 1812.

Note.—The entries are contained in two volumes; the older, of unwieldy dimensions, is of parchment, and has from time to time been added to and rebound as occasion demanded, it measures 17 by 7 inches and contains 153 pages. The entries of Baptisms and Burials extend from 1572-1797, while Marriages reach from 1572-1754. The handwriting is in some instances equal to good mediæval work, and almost all is neat and legible. Some of the Burial entries are curious enough to deserve mention, thus:—

"Georgius Rudge seipsa bombarada fellonica interfecit, 14 Jan. 1674."

"Elizabeth Thornel, widow, was buried at ye upper end of the highway leading from Custard Land through ye plow of ground commonly called Horsefair for having hanged herself ye day before, she was blind and 86 years of age, June 25, 1695."

"March 15, 1695. John Wareing for his honest living I cannot but mention among the christian dead who was by his Relations put in the ground like a dog in ye Quakers Meeting House Yard."

These extracts have been made by the Rev. J. H. Bloom, and are printed with the consent of the Rector, the Rev. D. Lloyd, after collation with the originals.

Marriages at Tidmington,

1693-1812.

NOTE.—The Marriages of this Parish are contained in a single parchment volume of 23 pages, measuring 11·5 by 7·25 inches, but they are entered in a very confused and scattered manner. There are duplicates in a small paper book of those dated 1762-1773, this latter has no cover and its sheets are loose, but the former is in fair condition and has likewise entries of Baptisms 1691-1803, and Burials 1691-1801; in the transcript these duplicates are marked with a star. Many of the entries are in Latin. The living has been united to that of Shipston for some years, and this accounts for the prevalence of Shipston names in its Register Books. These extracts were made by the Rev. J. H. Bloom, with the permission of the late Rector, the Rev. J. W. Caldecot, D.D., and are printed with consent of the present Rector, the Rev. D. Lloyd, M.A., after collation with the originals. A few explanatory additions are inserted in square brackets.

Marriages at Bradley,

1630 to 1812.

NOTE.—Until 1862 the Chapelry of Stock and Bradley formed part of the ecclesiastical parish of Fladbury, but notwithstanding this fact, the Church or Chapel of Bradley appears to have had all the rights of a Parish Church, which it actually became in that year. The Register down to the year 1812 is contained in three volumes. The oldest of these is unbound, its size is 14 by 8 inches, it contains 26 pages, all of which, except the outside ones, contain entries of Marriages, Baptisms, or Burials. This book is in bad condition, and in many places hard to read, owing to discolourment of the parchment, and also to bad writing. On the outside, at the beginning, is the inscription:—

"The Register Book of the Parish of Bradley from 1645 to 1718."

Written on the outside of the Register book at the end, and in parts almost obliterated, is the following:—

"July 19th, 78, Thomas Hobday *als.* Lacey and Joane Ingram were accused."

"Aug. 25th, 1678. The said Thomas [Hobday] *als.* Lacey and Joane Ingram were married."

"The said Joane was delivred of a childe."

Here there is a blank which has never been filled in, but in the Register is the following entry under the year 1679:—

"Mary, the dau. of Thomas Hobday *als.* Lacey and Joane his wife, was baptized the 13th day of Aprill."

"John Hobday *alias* Lacey & Mary Lad[sb ?]ury, of Beanhall, in the parish of Feckenham, were married the sixth day of January, 1684."

Probably these two Marriages are entered in the Feckenham Register. These notes are clearly written, evidently in the handwriting of William Brooke, Curate of Bradley from about 1669 to 1687.

Vol. II is in size $14\frac{1}{2}$ by $7\frac{7}{8}$ inches, is bound in vellum, and contains Marriages from 1720 to 1754, and Baptisms and Burials from 1719 to 1812. It is in good condition and well written throughout. It is inscribed—"Register of the Parish of Bradley, commencing with the year 1719."

Vol. III is the one provided after the passing of Lord Hardwicke's Act, its size is 15 by 10 inches, it is bound in calf, and is excellent as to condition and writing. Although the Registers began only in 1645 the Transcripts at Worcester have supplied the Weddings

for 1630 to 1640. These were abstracted by that careful and painstaking antiquary, the late Rev. T. P. Wadley, Rector of Naunton Beauchamp.

These extracts have been prepared by the Rev. Gordon H. Poole, Vicar of Himbleton, and are now printed under his supervision by leave of the Rev. H. Housman, Rector of Bradley.

Marriages at Offenham,

1543 to 1812.

NOTE.—The earliest register is of paper (water-mark a flagon) bound in a cover of flexible parchment. The leaves number 76, and measure 15 by 11 inches. They are in very bad condition, and many of them loose. The heading runs :—

"Hereafter followe the names of suche p'sonnes that have bene christened within the parishe of Offenham since the ixth day of Novembre for the xxxth yere of the reigne of our Soveraigne Lord King Henrye the VIIIth, at which tyme his graces iniunctions were directed unto us. A'o. D'm. 1538."

The parchment copy of the above also exists, and consists of 59 leaves, measuring 15 by 6 inches. The contents include all entries between 1538-1720.

The third Volume is like the first, of paper, and contains 46 leaves, which measure 15 by 11 inches. The contents include the Burials and Baptisms, 1724-1812, and Marriages to 1753.

The fourth Volume contains Marriages only from 1754-1777, and the fifth Volume the remaining Marriages to 1812.

These extracts were made with the consent of the Vicar, the Rev. C. W. A. Preston, and are now printed under the supervision of the transcriber, the Rev. J. H. Bloom, after collation with the originals.

Marriages at Alstone,

1550 to 1805.

NOTE.—There is a tradition to the effect that the Register of this parish began in the year 1515, but there are no entries at present existing before 1550, though many leaves appear to have been torn out. The Rev. W. H. Staunton, Rector of Toddington, states that many years ago he took early extracts, but cannot find his note books. The oldest existing volume contains all the entries from 1550-1748, and consists of 40 leaves of parchment, measuring 12 by 6 inches. Vol. II contains the remaining weddings up to 1812. These extracts have been made by the Rev. J. Harvey Bloom, with the consent of the Rev. C. Glynn, Rector of Overbury.

The names of all such as have been maried since the year of oure Lord 1550.

NOTE.—The oldest Registers of this parish consist of two volumes of parchment.

Vol. I. Leaves 55. Size, 8 by $5\frac{1}{2}$ inches. Contents: pp. 3-26, Baptisms 1587-1646; pp. 27-32, Marriages 1588-1638; pp. 33-110, Bap., Bur., and Mar. 1633-1735. Binding: parchment. Condition: fairly good.

Vol. II. Leaves 19. Size: $10\frac{1}{2}$ by $6\frac{1}{2}$ inches. Contents: Mar. 1735-1753. Bap. 1735-1812. Binding: rough calf. Condition: good.

Vol. III is the ordinary paper volume adopted on the passing of Lord Hardwicke's Marriage Act.

There was no churchyard at Kington, so that, with the exception of a few buried in the Church, burials were mostly at Inkberrow.

The following extracts have been made by the Rev. W. J. Holden, rector of Kington, and are now printed under his supervision.

Marriages at Church Lench,

1702 to 1812.

NOTE.—The earliest extant Register is of parchment, and contains entries of Baptisms, Marriages and Burials interpersed in various parts of the Book. The first Marriage entry is dated 6th Oct. 1702, and the last in 1750. The first Baptism is dated 24 June 1696, and the first Burial entry is dated 1702. The second register is the ordinary book of printed forms, and commences in 1754. The extracts have been made by the Rev. F. Smith, Rector of Church Lench, and are now printed by his leave and under his supervision, after comparing the proofs with the original Registers.

Marriages at Rous Lench,

1539 to 1812.

NOTE.—This Parish, which appertained to the See of Worcester before the Conquest, and seems to have been then called "Biscopesleng" (Domesday), after having become the property of a family which took its surname from the place, "de Lench", again changed hands about the reign of Richard II, when the family of Rous, who were then seated at Ragley, co. Warwick (eight miles off), acquired it, the Lenches retiring to Doverdale, near Droitwich, where they had property for centuries, and where they seem to have become extinct temp. Geo. I. The Rouses tried to evict the name of "Randolph-Lench", or "Lench-Randolphi", which it had borne quickly after the Conquest, and to give it their own name—"Rous Lench". It was called "Randolph's Lench", *alias* "Rouslench", as far on as the time of Charles II, as appears by a Title-Deed discovered in the thatch of a cottage the writer pulled down about 13 years ago, but eventually the newer name of "Rous Lench" established itself, and now it is not otherwise known.

The family of Rous became extinct in 1721, when it devolved, in the female line, to Mr. Phillips, who assumed the name and arms of "Rous", but, dying unwed, it descended to his next of kin, whose name was "Boughton" (of Lawford, co. Warwick), who also took the name and arms of "Rous", and whose grandson sold it, in 1876, to the Rev. W. K. W. Chafy, of Sheriff's Lench, &c., who still holds it.

The family of "Rous" intermarried with that of Haslerigg, of Noseley, co. Leicester, where Cromwell made his headquarters when he was in that county. By-and-by, the Rouses became staunch supporters of him, and a local tradition has it that he spent the night before the battle of Worcester at Rous Lench Court.

The earliest Book of Registers is a tall thin vellum Volume, measuring $16\frac{1}{2}$ inches by $6\frac{1}{2}$ inches, and contains the Weddings up to 1752, intermingled with other entries. Volume II, in which are the Weddings from 1754 to 1812, is the usual printed folio bound in rough calf.

Many of the old names mentioned in it linger on in the parish, *e.g.*—One aged woman, who married Smith, was "Guise" before her marriage. "Hemming", "Harwood", "Ballard",*

---

* "a" and "o" are invariably and markedly interchanged in pronunciation, thus—"Harwood" is always "Hørrod" or "Hørwood", 'Ballard" is "Bøllard", "Stanley" is "Stønley", "Sallis" is "Søllis", and "Cord" is "Card".

"Howell", "Wilson" (just extinct), "Allies", "Gilbert", "Curnock", "Stanley", "Wilkins", "Chance", "Tovey", &c., are still found.

These Marriages have been extracted by the Rev. W. K. W. Chafy, and are now printed under his supervision.
